Personal Summary

Pursuing **B.Tech in Computer Science Engineering (Cyber Security)** at LJ University. Gaining practical experience in **software development, backend systems, AI/LLM applications, automation, and cybersecurity** through academic and personal projects.

Education

Bachelor's Degree CSE(CYBER), *LJ University* 01/2028
Ahmedabad, India

Computer Science Engineering student specializing in Cyber Security with hands-on experience in **Java, Python, JavaScript, REST APIs, backend development, AI/LLM integration, and multi-agent systems**. Experienced in building full-stack, automation, and enterprise-focused software projects with strong foundations in **OOP, DSA, DBMS, and problem solving**.

Project

CyberLens

CyberLens — Web Vulnerability Scanner | React.js, Flask, Python

• Developed a web vulnerability scanner to analyze security headers, open ports, XSS signals, and SQL injection indicators.

• Built a React frontend and Flask backend API to display scan results with risk scoring.

• Added PDF report generation and deployed the application for real-world security assessment.

Banking System Application, *Java, OOP*

- Developed a console-based banking system using Object-Oriented Programming principles.
- Implemented functionalities including account creation, transactions, and validation checks.
- Managed multiple users using arrays of objects.
- Designed a menu-driven interface for smooth user interaction.

AI Email Handling System using Multi-Agent Architecture

- Built a **multi-agent email automation system** for classification, summarization, prioritization, routing, and AI-assisted responses.
- Integrated **LLM APIs and REST APIs** for intelligent email processing and automated workflows.
- Developed end-to-end email integration using **Python and FastAPI/Flask**.

Tech: Python, FastAPI/Flask, LLM APIs, Multi-Agent Systems, REST APIs

Skills

- Programming: Java, Python, JavaScript
- Backend & APIs: REST APIs, Flask, FastAPI, API Integration
- AI: AI/LLM Integration, Multi-Agent Systems, AI Agent Development
- Core CS: OOP, Data Structures & Algorithms, DBMS, Computer Networks, Operating Systems
- Frontend: React.js, HTML5, CSS3,JS
- Other: Problem Solving, Debugging, Full-Stack Development

Languages

- English
- Hindi
- Gujarati
